INTRODUCTION

RESEARCH

Bob has noticed that a major problem in the school is that children in the school are less involved in extracurricular activities. Even students who were regularly involved in extracurricular activities are now giving priority to their studies. He started a research to find a solution to this. He found that this is due to the lower grades of students who are involved in extracurricular activities and other reasons. For this, he started a project called Edu Track Sri Lanka.

EXTRA CURRICULAR

Here, the teachers and principal of the school are able to observe every extracurricular activity that the students do, thereby providing help to the students who are weak in their studies and evaluating the students whose academic level is very good. All the sports, clubs and other extracurricular activities of the school are available on this EduTrackSriLanka website.

EX:- Computer Society, Chess, Media Unit, …

STUDY

Furthermore, all students can monitor their academic level by creating a separate profile. All classes from grades 6-13 can be monitored here.
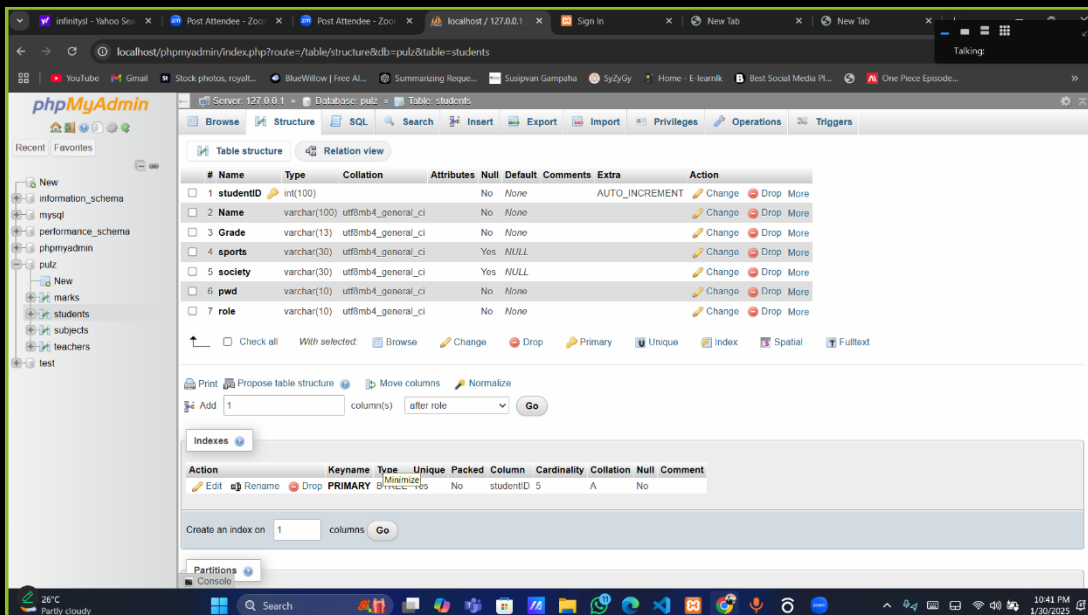

TECHNOLOGY

DATABASE

After entering the web folder you will find a database file named "pulz" in a folder called db. Import this file into your own database to access relevant data for the My EduTrackSriLanka website.

Eg;- ..\pulz\db\pulz

LANGUAGES

1. JAVASCRIPT
2. JAVA
3. PHP
4. HTML
5. CSS
6. MYSQL

HOSTING

I hosted it on the infinityfree site.

Academic Insights

EduTrack systematically monitors students' academic progress using AI-driven analytics. It collects data from exams, assignments, and quizzes, providing real-time insights into strengths and weaknesses. This allows students to self-evaluate and improve, while teachers receive accurate reports to tailor their teaching methods for better learning outcomes.

What is the
EduTrack SriLanka
Project?

"Edu Track Sri Lanka" is designed to act as a measurement tool for assessing both students' academic progress and their extracurricular skills. Introduced through research,this system will greatly assist students in evaluating their own performance while also providing teachers with valuable assessment reports.

Clubs & Societies

School clubs and societies provide students with opportunities to explore interests, develop skills, and build relationships outside academics. These groups focus on diverse areas such as arts, culture, science, environment, sports, and leadership, fostering personal growth, teamwork, and creativity while enhancing the overall school experience.

Sports

Sri Lankan school sports are vibrant arenas where passion meets perseverance. From cricket pitches to athletics tracks, they ignite dreams, unite rivals, and celebrate youthful energy. These sports cultivate champions, build character, and weave stories of triumph that echo across the nation's proud heritage.

HOW TO LOGIN

First of all, you need to register by selecting teacher or student from the sign up. Students cannot access the admin panel here. Only teachers can access the admin panel here.
